

FB 300B

BATTERY POWERED
REVERSIBLE VIBRATORY PLATE

Emission free compaction of sand, gravel and rock fill.

All our machine models are versatile and easy to operate. They are also durable and reliable, which means lower operating and maintenance costs.

- The Swepac FB 300B is ideal for work in areas where combustion engines should not be used, such as trenches, tunnels, urban areas or indoor construction.
- Operating time over 2 hours thanks to the powerful 6.6 kWh Lithium-Ion battery.
- 4 hour charging time with 40 A charger
- Very easy to maintain and service - no air filter or engine oil change. No handling of fuel.
- An easy to maneuver machine with a robust frame that protects battery and motor
- Superior ergonomics with an efficiently de-vibrated handle

TECHNICAL DATA – SWEPAC FB 300B

Weight, net	289 kg	Working speed	0–25 m/min
Base plate, width x length	600 x 720 mm	Hand/arm vibrations HAV according to ISO 5349 on gravel surface	< 2.5 m/s ²
Height, max / min	1230 / 1150 mm	Guaranteed sound-power level, LwA	103 dB(A)
Length, max / min	1470 / 790 mm	Sound pressure level (at operator's ear), OP	89 dB(A)
Motor	10.0 kW IPM synchronous DC motor	PART NUMBER	
Type of battery	Lithium-Ion	306200	FB300B with 6.6kWh onboard battery pack
Voltage	48 V	1009314	40A Charger incl casing for FB200B/300B
Energy content	6.6 kWh	ACCESSORIES	
Centrifugal force	38 kN		
Frequency	82 Hz		

Swepac is Sweden's leading manufacturer of soil compactors. The company has a wide range of products, with different motor options and a variety of sizes for every application. Swepac is certified for quality and environmental management under ISO 9001 and 14001, and our machines are Eurotest-certified by SMP Swedish Machinery Testing Institute. You will find detailed information about the company and our products on our website, www.swepac.com. We reserve the right to make changes in technical specifications without prior notice.
